

Environmental and Regulatory Specialist

Responsible for the implementation and maintenance of the airport's regulatory management system to ensure that the Greater Moncton International Authority (GMIAA) manages key environmental, safety and security obligations and regulatory requirements. These obligations pertain to various aspects of airport operations and activities including Safety, Security, Environment, and Carbon Reduction.

Also responsible for coordination and training of the internal audit team.

Essential Functions

- Lead and achieve carbon reduction goals and initiatives.
- Produce and monitor airport carbon footprint and maintain participation in the Airport Carbon Accreditation program.
- Implement, monitor, and maintain the Airport Environmental Management System and other regulated management systems, as required.
- Set and monitor environmental carbon reduction objectives and targets.
- Ensure compliance with all applicable Federal, Provincial, and Municipal environmental, and other regulations and standards by implementing, developing, and maintaining appropriate policies and procedures.
- Ownership of the airport wildlife management program, including obtaining permits, coordinating wildlife control, training, identifying improvements, and analysis of trends.
- Administer the airport glycol mitigation plan as well as other programs including AVOP, carbon management, noise management and potable water.
- Conduct and coordinate field work in all seasons including storm water sampling, field and facility inspections and wildlife mitigation.
- Administer tenant and contractor environmental, safety and security guidelines and carry out contractor briefings.
- Oversee and monitor operation of glycol collection and management system, including system and equipment testing.
- Develop and maintain compliance matrix for all airport operational regulated requirements.
- Administer and coordinate safety, security, and environmental documentation reviews.
- Maintain participation within internal and external environmental, safety and security committees.
- Present information on related projects and programs to the Airport Executive, Management, Staff and Tenants on an as required basis.
- Advise management on all changes to related environmental, safety and security legislation.
- Administer and coordinate the airport quality assurance program including all necessary internal operational audits.
- Coordinate and investigate environmental and safety incidents.
- Identify, administer and/or deliver regulatory training.
- Liaise with external agencies as requested.
- Administer safety, security, and environmental awareness programs.
- Other duties as assigned.

Qualifications

- Completion of a baccalaureate level university or college education required in a related field (Environmental/Regulatory).
- Knowledge and applied experience of Provincial and Federal environmental legislation.
- Knowledge of Transport Canada Safety and Security legislation.
- Familiarity with related Federal OSH regulations.
- Demonstrated ability to use initiative to achieve results.
- Proven innovation to problem solving, and willing to work independently.
- Experience in the implementation and administration of management systems.
- Must have excellent interpersonal skills with the ability to interact with a widely diverse group of employees with various education levels and interests.
- Must be able to demonstrate leadership in a fast moving, rapidly changing crisis environment.
- Proficient with Microsoft suite of programs and comfortable working with computer-based technology.

This position is based in Dieppe, NB and is included in the collective bargaining unit (UCTE) for the Greater Moncton International Airport Authority.

Applicants can submit a cover letter highlighting qualifications and interest in the position as well as a resume through [Indeed](#).

The Greater Moncton International Airport Authority values the diversity of the people it hires and serves.
