### Join Our Dynamic Team at the Greater Moncton Roméo LeBlanc International Airport (YQM)!

Are you ready to be part of an exciting and vibrant environment? At YQM, we go beyond providing safe and efficient travel. As a hub of economic growth and development, we pride ourselves on delivering exceptional passenger experiences, expanded connectivity, and strong partnerships.

Join our talented, collaborative, and dedicated team, and watch your career take flight! Embark on this adventure with us as we make YQM the airport of choice in Atlantic Canada. Learn more about us [here](#).

### *Our Culture*

We foster a friendly and inclusive culture where every team member feels valued and supported. Our organization is built on principles of respect, collaboration, and continuous improvement. Some of the ways that we support our employees include:

- Competitive pay
- Benefits, including a monthly health care allowance, generous maternity/paternity paid leave, matching pension, annual vacation and sick leave
- Career development and training programs
- Paid volunteer opportunities
- Company-sponsored events
- Long-term stability
- On-site gym

### *General Overview of the Job*

Responsible for the implementation and maintenance of the airport's regulatory management system to ensure that GMIAA manages key environmental, safety and security obligations and regulatory requirements. These obligations pertain to various aspects of airport operations and activities including Safety, Security, Environment, and Carbon Reduction. Also responsible for coordination and training of the internal audit team.

### *The Things You Will Be Doing*

- Lead and achieve carbon reduction goals and initiatives.
- Implement, monitor, and maintain the Airport Environmental Management System and other regulated management systems, as required.
- Ensure compliance with all applicable Federal, Provincial, and Municipal environmental, and other regulations and standards by implementing, developing, and maintaining appropriate policies and procedures.
- Ownership of the airport wildlife management program, including obtaining permits, coordinating wildlife control, training, identifying improvements, and analysis of trends.
- Administer the airport glycol mitigation plan as well as other programs including AVOP, carbon management, noise management and potable water.
- Conduct and coordinate field work in all seasons including storm water sampling, field and facility inspections and wildlife mitigation.
- Administer tenant and contractor environmental, safety and security guidelines and carry out contractor briefings.
- Administer and coordinate safety, security, and environmental documentation reviews.
- Maintain participation within internal and external environmental, safety and security committees.
- Present information on related projects and programs to the Airport Executive, Management, Staff and Tenants on an as required basis.
- Advise management on all changes to related environmental, safety and security legislation.
- Administer and coordinate the airport quality assurance program including all necessary internal operational audits.
- Coordinate and investigate environmental and safety incidents.
- Identify, administer and/or deliver regulatory training.
- Other duties as assigned.

### *Our Requirements*

- Completion of a baccalaureate level university or college education required in a related field (Environmental/Regulatory).
- Knowledge and applied experience of Provincial and Federal environmental legislation.
- Familiarity with related Federal OSH regulations.

### *Additional Skills That Are Important for This Role*

- Knowledge of Transport Canada Safety and Security legislation.
- Demonstrated ability to use initiative to achieve results.
- Proven innovation to problem solving, and willing to work independently.
- Must have excellent interpersonal skills with the ability to interact with a widely diverse group of employees with various education levels and interests.
- Must be able to demonstrate leadership in a fast moving, rapidly changing crisis environment.
- Proficient with Microsoft suite of programs and comfortable working with computer-based technology.

### *You Will Thrive in This Role If:*

- You work best in a fast-paced environment, managing multiples tasks and deadlines while keeping a sharp eye on attention to detail.
- You are a self-starter and are self-motivated to achieve short- and long-term objectives.
- You have experience in the implementation and administration of management systems.

### *Important Details*

This position is located at our terminal in Dieppe and reports to the Manager, Terminal Operations. The starting pay rate is \$39.54 per hour, with a 2.5% increase after the probationary period and another 2.5% increase at the end of the first year. The role is based on a 37.5-hour workweek and is part of the collective bargaining unit (UCTE) for the GMIAA.

### *How Can We Help You? Our Accessibility and Diversity Efforts*

We are dedicated to fostering an inclusive and barrier-free work environment, beginning with our hiring process. If you require accommodation at any stage of the evaluation process, please email [accessibility@cygm.ca](mailto:accessibility@cygm.ca) to request specialized assistance. All accommodation information will be kept confidential.

The Greater Moncton International Airport Authority (GMIAA) values the diversity of the people it hires and serves. At GMIAA, diversity means fostering a workplace where differences are recognized, appreciated, respected, and responded to in ways that fully develop and utilize each person's talents and strengths.
